Wilton Mini Treats

Appetizers 6

From a savory cheese torte to a festive molded crab salad...from attractive green chili tarts to a simple yet sophisticated pâté...these personal size treats are easy to create and even better to eat.

Breads 14

What could be more inviting than the aroma of freshly baked bread? Fresh breads baked in appealingly cute individual shapes. Personal-sized treats like tasty cheddar scones or elegant individual loaves of lemon carrot tea bread are perfect for entertaining and easy enough to serve everyday.

Entrees 20

Tempt even the most finicky of eaters when you pack good-for-you foods into adorable mini shapes. Serve hearty burgers on a bear-shaped bun or crazy calzones (turnovers stuffed with pizza sauce and cheese). Included as well are ideas for adult tastes like individual taco salads and tempting chili cheese egg muffins.

Desserts 32

Who loves desserts more than kids? Grown-ups, of course. And when you bake and mold desserts into mini packages, it's time for celebration. Among the selections: a personal-sized chocolate mousse cake and a lemony cheese-cake. Finally, for your child's most memorable birthday: a beguiling circus train, strung together with mini locomotive and animal shapes.

Which pan to use?

Most of the recipes in Mini Treats are baked or molded in one particular pan or shape. However, there are all kinds of possibilities. To give you some ideas, we've suggested a few additional shapes and sizes pictured at the bottom of many of the recipes. But don't stop there. Substitute a Shortcake for a Shell or a Fancy Heart with a Teddy Bear.

The shapes and pans* you choose will make your mini treats just a little more special.

Tips

- For cakes and breads, grease and flour or spray pans with vegetable pan spray. Fill pans $1/2$ to $2/3$ full with batter.
- For chiffon and angel food cakes, don't grease pans. For angel food cakes fill pans $3/4$ full with batter.
- For rice or pasta molds, pack into pans, unmold immediately.
- Creating fruit tarts or quiche? Use 2-Pc. Tart Mold pans. For pastry crusts, just lay rolled out pastry across the top of the pan. Then cut pastry by rolling edge to edge with rolling pin. Press cut pastry into the pan.
- For dessert mousses or savory cheese molds be sure that the molded ingredients are very well chilled before unmolding.
- Can't recall the capacity of the pans you have on hand? Fill pans with water and pour into a large measuring cup.
- Before baking unfilled crusts to be used with fruit fillings, prick bottom crust with fork.

Feta Cheese & Vegetable Pâté

Wilton Singles! 4" Ring Pans

1 1/2 cups leek (white and light green only) halved, rinsed and sliced

2 envelopes unflavored gelatin

1/2 cup cold water

10 ounces feta cheese

2 packages (8 oz. each) cream cheese, cubed

1/4 cup milk

1 tablespoon snipped fresh dill or parsley

1 can (8 1/4 oz.) sliced beets, well drained

1/4 teaspoon dry mustard

1/8 teaspoon ground cloves, optional

8 cups mixed baby salad greens

Spray each pan cavity lightly with vegetable pan spray. Steam leeks with a little water in a covered saucepan over medium low heat until tender, about 5 minutes. Remove cover and continue cooking until remaining water is evaporated. Set aside. Sprinkle gelatin over cold water in glass measuring cup; let stand to soften. Heat in microwave about 1 minute on high to dissolve.

Crumble feta cheese into food processor; pulse to make fine crumbs. Add cream cheese and milk; process until smooth. Remove to bowl. In same food processor, puree leeks and parsley with half of the gelatin mixture until fairly smooth. Add half of cheese mixture and pulse until blended. Fill pans half full. In same food processor, pulse beets, dry mustard, cloves and remaining gelatin mixture until fairly smooth. Add remaining cheese mixture and process again until blended. Pour carefully over first layer to top of pan. Chill several hours or overnight until set. To serve, unmold onto salad greens. Serve with Greek olive breads, page 8. Makes 6 molds.

Preheat oven to 350°F. Spray pans well with vegetable pan spray. For cake: in metal bowl set over saucepan of simmering water, melt chocolate and butter, stirring until smooth. Remove bowl from heat; stir in sugar and flour until well combined. Add eggs, one at a time, stirring well after each addition. Spoon into pans, filling until center is barely covered (about 1/8"). Bake for 10-12 minutes, until just set. Cool 3-4 minutes and unmold. For mousse: combine chocolate, butter and liqueur in small heavy saucepan. Stir over low heat until melted. Pour into bowl; cool to room temperature. With wire whisk, whip cream in chilled bowl until soft peaks form. Fold into chocolate mixture. Cover and chill until slightly firm so it can be piped. Pipe about 1/4 cup mixture into each cake indent or on plate along side. Sprinkle cakes with confectioners sugar. Garnish with chocolate-covered coffee beans or raspberries and mint sprigs, if desired. Makes 8 cakes.
